"1800s Monster Bashing Mayhem!" by: [nemesis90forever](#) ( 23 ★ )

This PSX port of a horror hack em up is a major improvement over the original with better graphics, controls and frame rate. Basically a wizard has let loose a bunch of ravenous monsters that are hell-bent (no pun intended) on destroying 1800s London. The short levels mostly comprise of, for one thing killing monsters to keep up your adrenaline so you can stop the progression of a nasty p...[Read full review](#)

"Scary game" by: [alukadrakul](#) ( 8 )

I searched up scary games for the n64 and came across this game. I love the title so i decided to do some research and noticed how scary this game was. I needed it so i bought it. For the little time I played it I was actually started by the monsters. I had just received it and stayed up late so I didn't play it long cause I was tired from working. Great game!!!

"Good Game" by: [falsereflection\\_music](#) ( 62 ★ )

I like fighting the weird creatures in every level, but the only downside to the game is the same "creatures" throughout the game.

"WOW NIGHTMARE CREATURES! AWESOME!" by: [sladekraven87](#) ( 31 ★ )

This Game is one wicked game. Weather my weapon is a gun, knife, stink bomb, explosive bomb, grenade, or even just using fists. This game is wicked and will brings lots of fun to me. I guess the one thing I did not like about the game is that its hard to beat the game but overall this is Amazing! Best 64 game I ever played!
